

Remake Checklist | REMOVABLE

When DDS Lab sends you a case, we kindly request that you carefully review all accompanying notes for specific delivery instructions before considering a case for a remake.

Your attention to these details is greatly appreciated.

Items to enclose with the Remake Request

Remake Rx:

Remake reason specified on the Rx.

Original Case Materials:

Model work, impressions, and appliance(s)

New Case Materials:

- **Double-Check Impressions/Models:** Verify that impressions and/or models are accurate and void of defects before sending them to the lab.
- **Check Bite Records:** Ensure bite registrations are precise and properly recorded.
- **Wash or Pickup Impressions:** Examine the impression to ensure it's free from defects, voids, or tears.
- **Clear and Detailed Instructions:** Provide the lab with clear, written instructions for each case, specifying materials, shade, techniques, and any special requirements.
- **Photos:** Include high-quality photos of the patient's teeth from various angles to aid in case understanding.
